

# ANA DONOHUE INTERIORS

Specializing in Residential and Boutique Interior Design

Ana Donohue, principal and founder of Ana Donohue Interiors, is dedicated to infusing a client's personality and vision into a unique, beautiful and unexpected space.

Established in 2002, Ana Donohue Interiors specializes in residential and boutique design, focusing primarily on interior design, construction and consultation projects. The firm designs full interiors, individual rooms, custom built-ins and custom furniture. Ana and her team also consult on a variety of other projects including furniture selection and layout, color choices, window treatments and art installations. Ana personally oversees each project from conception through installation.

Ana Donohue Interiors has a reputation for mixing styles in a room and truly making a house feel like a home. The approach balances and respects the client's opinions and tastes while blending in design that introduces a degree of the unexpected and delivering new

possibilities to call home.

The company's approach to new projects starts with extensive research of the architecture, as well as a full understanding of the client's everyday needs and wants. Once a wish list is established, then the collaboration truly begins yielding mutual excitement and energy driving the vision into numerous possibilities.

The beautiful home featured in these pages is a wonderful illustration of the firm's ability to mix sleek contemporary, mid-century modern and traditional. The owners, still an Ana Donohue Interior's client, are thrilled with their home!
